Recall Statement

To whom it may concern:

We write this letter in regard to the efficacy and quality of our products.

In our 6 years of operation, ever since we have started producing CBD and Delta products for the general public we have yet to conduct a single recall on any of our lines. We ensure all of our products ship to their intended destination within a healthy composition regarding their manufacturing, longevity, and safe usage. All products are labeled in a manner displaying how they are to be used as well as their makeup in ingredients/cannabinoids. I will also note our team members follow strict guidelines on manufacturing these products by adhering to SOPs and ensuring their lab is completely sanitary every day.

Because of our diligence in our lab setting and strict protocols in place to ensure safety, cleanliness and quality, our streak may forever continue in never having to recall products placed into the hands of our loyal customers.
